

On April 9-13, 2017, Chalmers University of Technology (Gothenburg, Sweden) held the International Student Physicists' Tournament where Karazin University team gained the victory.

In general, 18 teams participated in the tournament, preliminarily divided into two subgroups by lot. The first subgroup comprised the winners of the national selections from Brazil, Venezuela, Italy, Colombia, Russia, the USA, France and Sweden. Karazin University representatives were included in the second group along with the teams from Greece, Germany, Russia, Slovenia, France, Croatia, Sweden and Switzerland. By the results of the final competition in which the teams from Karazin University, Paris École Polytechnique and Chalmers University of Technology participated, Karazin University students won the victory. The II place was awarded to the representatives of Chalmers University of Technology. The team from Paris École Polytechnique took the III place.

The members of our team were *Viktoriia Zaitseva, Olha Zaitseva, Ihor Sikachyn* (School of Physics) and *Bohdan Bidenko, Kyrylo Herashchenko, Oryna Ivashtenko* (School of Physics and Technology). The team had been trained by the Associate Professor of the School of Physics *Zakhar Maizelis* and the Associate Professor of the School of Physics and Technology *Oleksii Holubov*.

**For reference.** The team of the School of Physics and Technology of Karazin University has represented Ukraine three times in the International Student Physicists' Tournament and won the tournament three times: I place — in Dolgoprudny (Russia) in 2011, II place — in Lausanne (Switzerland) in 2014, I place — in Warsaw (Poland) in 2015.
