IPT: This text has font size 6 pt. QWERTY qwerty

Minimum size

Minimum logo size is defined according to font size 6 pt written with «Roboto». Letters «I», «P», «T» on the logo must not be smaller than 6 pt related text

This size of the IPT's logo on this page is maximum, because bigger size will attract a lot of attention of a viewer

Maximum size

Maximum logo size is defined according to the biggest element on a page or a picture. The logo must not attract excess attention to itself or exceed the biggest element

Minimum Exclusion Zone

To maximise the logo's presence and visual impact always maintain adequate clear space around it. The exclusion zone around the logo defines the area into which **no any** other graphic elements, such as text, imagery or other brandmarks can be contained.

The distance marked «X» here represents **half the height of the logo shield**. This formula applies to all types and sizes of the logo reproduction.

The **brackets system** is a distinctive element of our identity that is also functional for organising and presenting information.

The triangles that used as brackets are inspired by logo appearance and thus extracted from it. The dark purple **right-angled triangle** on the top left corner of the logo crest **is the main part** of each bracket.

The brackets can vary in size, colour and positioning, creating a flexible approach that encourages a creative expression across all Tournament's communications.

Position of both right-angled triangles is dictated by **edges of the text**.

Top and bottom positions are an average text line, and **not** the highest or lowest point of any letter.

There are **two positions of the second triangle** for different cases of text align: text edges touch acute angles or centre of hypotenuse.

The size of triangles is defined by the size of upper case letter «O» written with exactly the same font.

The thickness of first (left) triangle is defined by the thickness of lower case letter «l» written with exactly the same font.

BRAND GUIDELINES

International Physicists' Tournament

The International Physicists' Tournament (IPT) is a competition between teams of university students from different countries. The teams solve challenging scientific problems and defend their solutions in scientific discussions during Physics Fights.

Wingardium Leviosa!

- Don't use italic font or shadow

Don't put any shadow of the text to the background and don't make it italic

Petrificus Totalus!

- Don't use outlined text

Don't use outlined text - it becomes poorly visible or even transparent

Expecto Patronum!

Ἐπεκτο Πάτρονυμ;

- Don't use reflections

Don't make reflections - it brings mess to the view

Expelliarmus!

- Don't use 3D effects

Don't use any distortion of the text - 3D format, 3D rotation

- Don't use huge or tiny brackets

Don't use non-proportional brackets for the text – they look awkward

- Don't place brackets too close or too far from text

Use guidelines (and literally 😊) for the placement: pages 15, 16

- Don't change empty and filled triangles; don't use the same triangles

This is an example of how national website should look.

Each national website has to have the same design as main website does.

The basic idea of the whole national website family is continuity, similarity and ease.

Link to the main website

Main menu

News feed, announcements

Local societies, organisers, foundations

Social media

Position, size, order of elements can vary (except the main logo), but they should be preserved in order to keeping continuity between all national websites

Recommendations for having a great banner (in importance order):

- The whole banner is made in the one calm colour palette
- Name of the IPT's edition is relatively large and placed in the middle
- Ratio is 1:4.5 for year's edition website and full size is 2850x1085 pixels for Facebook and 2905 x 975 pixels for Twitter
- Picture on the left side is related to current problem list or some physics phenomena
- All logos are on the right side
- Website, date and host place are necessary
- Background image represents a host country or venue
- It is not plain and simple but also it is not overloaded with pictures, text, colours

Examples of IPT's banner:

Examples of IPT's post picture:

Recommendations for having a great advertisement picture:

- Shape of picture is square
- The picture is made of one dimmed photo from previous IPTs
- Logo of the IPT is in the top-left corner
- Name and year of current edition is in the top-right corner
- Message or appeal of the post is placed on the photo with large font size and is enclosed between brackets
- Short explanation in details is written under horizontal line
- Size is 1000*1000 pixels
- Photo does contain people 😊
